

Type 6K-US

## CeBeCo<sup>®</sup> **DUWAMAT**

### Cleaning system in through-feed method

- Made of thick welded high-grade sheet steel
- Components to be washed can be transported by metal-belt conveyors, overhead conveyors, endless chain transporters, prism pulsers or roller conveyors
- Can be integrated in existing or planned production plants
- For use with aqueous cleaners

## CeBeCo® DUWAMAT

### Process possibilities

The components to be washed are:

- showered using the designated nozzle fittings (spray-washed)
- dipped into the cleaning medium in cycles
- flooded chamber for chamber
- pressurised chamber for chamber with ultrasonic.

### Equipment

The CeBeCo® DUWAMAT is manufactured in numerous standard versions and can be designed individually according to customer-specific requirements upon request (e.g. number and selection of zones, cleaning processes, etc.).

### Model variants

The illustrations on this page show also special equipment that are not included in the standard scope of delivery. The contents comply with the status at the date of publication (03/16). We reserve the right to implement changes to construction and equipment. Screen colours only reproduce an approximation of the actual colour hue. Surcharge for the displayed special equipment.
